

MILITARY MOTIVATION

Air Force Style

FUNDAMENTALS

Air Force pilot training essentially begins in pre-school where the kids spread their arms and "zoom" about the room.

It doesn't progress much from there.

VIGILANCE

We serve well so others can sleep well.

SHOCK AND AWE

Only the Air Force would be this shocked...when they find out their Iraq tour is longer then four months.

CROSS INTO THE BLUE

My Air Force Recruiter never mentioned body armor

EXPERIENCE

Experience is something you don't get until just after you need it.

THE LAST TIME

An Air Force Cadet encounters mud. This will in all likelihood, never occur again.

CLOSE AIR SUPPORT

When the line between life and death is measured in millimeters of depleted uranium.

AIR SUPERIORITY

The only reason to fly below 10,000 ft. is a photo-op.

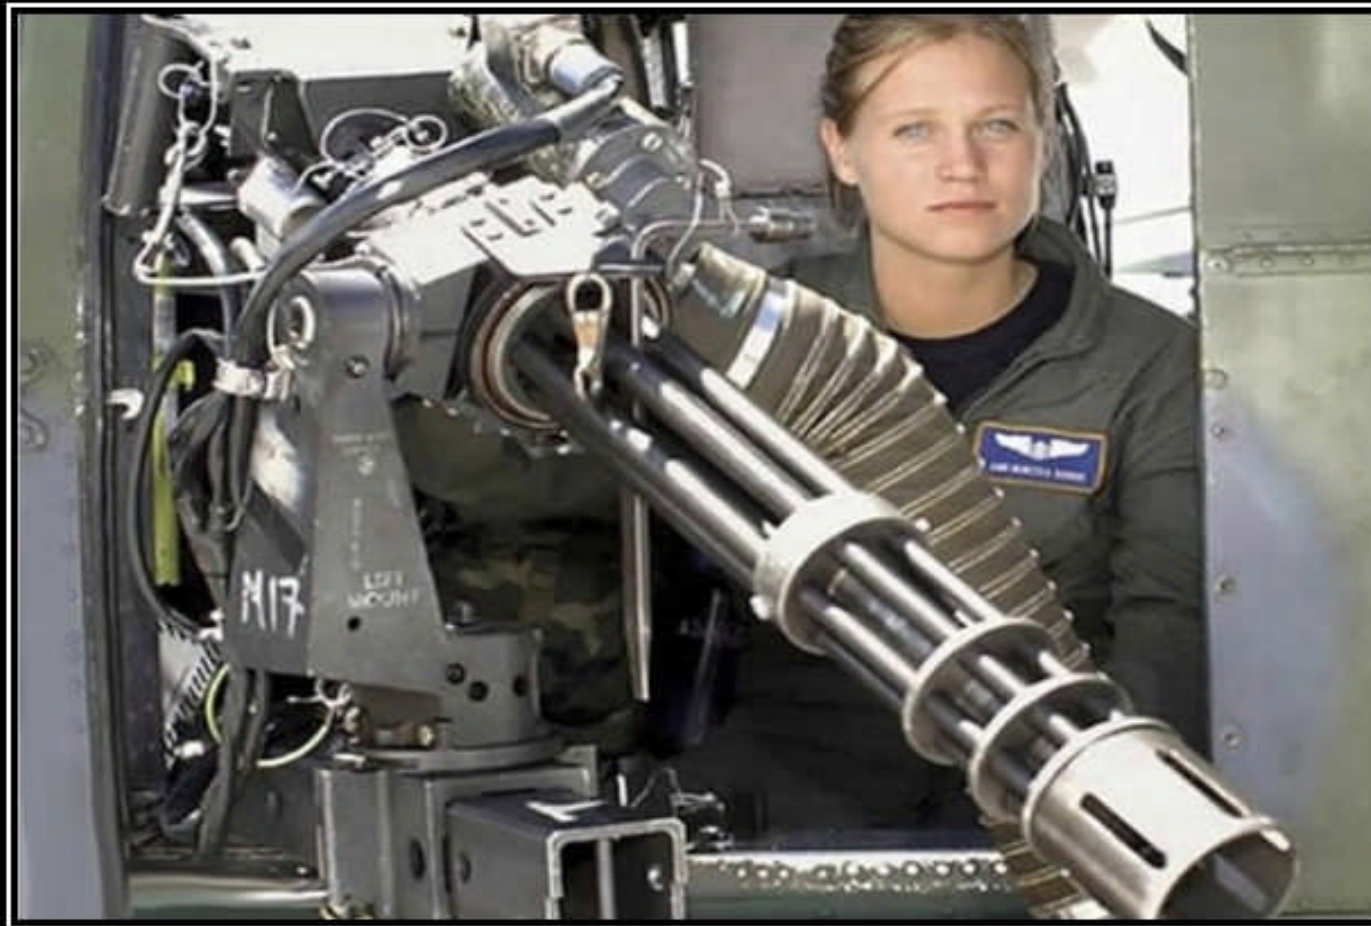

PRUDENCE

Never fly in the same cockpit with someone braver than you.

FOD

This is going to give a whole new meaning to bird strike

MISS AMERICA

At 2000+ rounds per minute, no other woman can compare.

WHY WE SERVE

The security of tomorrow's generation and our own future is it's own reward

DEMOCRACY

Democracy Doesn't Flow From The Barrel of a Gun.
But then terrorists were never interested in Democracy in the first place.

LIMITATIONS

The difference between stupidity and genius is that genius has its limits"
~Einstein

COLD, WET, AND WINDY

Yeah, let's see the Air Force launch in THIS!
